INTERLOCKING SAND-SET PAVERS
FOR PEDESTRIAN APPLICATIONS

ARTISTIC PAVER MFG.

STEPLOCK[®]

Why settle for the usual when you can have Artistic Pavers?

We won't crack you up, but we do make good pavers...

Regular poured concrete decks crack, Artistic Pavers flex between pavers avoiding cracks.

We are cool...

Cool on your feet. Most of our pavers are light colored and typically much cooler than most other deck surfaces.

Smooth, but not too smooth...

Our pavers are comfortable to walk on, but not too slippery, dry or wet.

Some exercising is fun, but exercising to clean your deck isn't...

That's why we manufacture our pavers to require very little maintenance. Because of additives and the high density of our pavers, algae, mildew and other yucky stuff have a difficult time growing on our product. Many natural and man made products require sealing to avoid the yucky stuff, we don't.

Salt pools, no problem...

Again, because our pavers are so dense, salt water from pools that use chlorinators will not damage our decking.

Save your precious toes...

Our pavers are designed for commercial and residential pedestrian traffic. Calibrating and beveling the border of our pavers keeps you from stubbing those precious little toes.

Great in cold weather...

Our product passed the rigorous 50 cycle freeze-thaw test with no measurable weight loss or cracking.

Lickety-split...

While you're sleeping, we're probably making pavers. Our standard pavers are usually ready for speedy delivery. Installation is quicker than installing a concrete slab with a topping, because our pavers don't require a slab and paver installations are less affected by bad weather.

It is great to be special...

We make many different types of coping. Bullnosed on one, two, three or all four sides of the paver. By using our coping, you are able to have a spa or raised wall without having a seam going through the middle of the coping.

We hate to call ourselves cheap, but we are very fairly priced...

Our pavers and coping add so much to the look of your backyard environment, are so functional, and will last so long, that you would think we cost a bunch. We don't, we are less costly than many materials that require slabs and a little more than some, but well worth it.

Different textures...

Texture is a defining component when deciding on pavers for your project. Artistic Paver Mfg.[®] offers different textures, from the natural look of stone or coral to a smooth polished surface honed to expose the natural aggregates, adding charm and character to any outdoor living space.

Using advanced technology, we also offer a 'polished & antiqued' finish, which yields a casual aged look with cushioned rounded bevels. This process leaves a casual inexact finish with softened dimples on the face and edges of the pavers, adding individual characteristics to each paver.

8" x 24" x 2-3/8" Planklock®

Architects and Landscape Designers throughout the country are trending towards a more lineal look for decks.

Planklock® 8"x24" delivers a very contemporary look in a 2-3/8" thick paver designed for pedestrian applications.

The smooth polished finish, in its long and narrow design, creates a linear pattern that is stylish and sleek in appearance.

The Details

Artistic Paver Mfg.[®] offers many options of coping and specialty pieces to provide a rich looking and durable solution.

Artistic Paver's coping and specialty pieces are ideal for architectural and decorative accents such as:

Pool coping • Raised walls • Steps • Spillways
Fountains • Benches • Planters • Remodeling Projects

This ensures that materials used for architectural solutions will coordinate with the Artistic Paver decking material. They will not only give your project a great look, but they also make installation easy, saving you time and money.

The result is a luxurious combination of beauty and technology that will keep you satisfied for many years to come.

Your driveway deserves the same quality as your deck...

Our pavers are manufactured with natural materials and will vary in color. The variation in color and shade can enhance the natural look and beauty of the finished project.

ROADLOCK[®]

ARTISTIC PAVER MFG.

Designed for Vehicular Applications

Make a "Welcome to My Home" statement by choosing the same Artistic Pavers quality for your driveway.

Roadlock[®] driveway pavers have a stunning look and are a refreshing change to the old concrete driveways. Its polished and smooth surface adds beauty to any project.

Our high-quality driveway pavers will redefine your concept on how to keep your driveway looking its best. Built with the latest technology, they are durable and require very little maintenance.

Choose from a classic pattern or create your own. Mix and match colors to express your style and preferences. The end result will be an elegant entrance, while also enhancing the value of your property.

DISCLOSURES

- Because of color dye and natural raw materials inconsistencies, products will have color shade and texture variations.
- In Shellock pavers, natural shells are embedded at different distances from the surface of the material, and then polished. Therefore, a small percentage of the shells are expected to come loose from the surface and edges of the tile. This occurrence will diminish over a short span of time and in no way will affect the strength of the product.
- Please expect variations in colors and some chipping and non-perfect edges. These details are intended to enhance the appearance of our pavers.
- Due to the process required to manufacture, package, deliver, unpack, install and compact, small chipping can be expected.
- Pavers are calibrated to achieve a uniform thickness and are manufactured in metric sizes and are rounded to the closest equivalent size in inches. Please refer to the actual sizes listed above in millimeters for accuracy.
- Coping will be slightly smaller than nominal dimensions due to the processes required to manufacture them. Please refer to the actual sizes listed above

in millimeters for accuracy. The dimension marked with (B) is the bullnose side.

- (1) Colors may vary slightly from actual pavers. Colors shown on our website may vary from actual pavers. Before making a decision, we recommend verifying your selection at your local Artistic Paver retailer.
 (2) The 4x8 border pavers are machine cut and not dimensionally consistent. Artistic Paver Mfg. recommends these pavers should be used strictly as border material, therefore, not recommended for field material.
 (3) Pavers should be installed from several pallets at a time to maintain the best color consistency.
 (4) Due to the diversity in the natural aggregates used to make our pavers, the difference in aggregates in each plant and other elements beyond our control, the colors seen here may not exactly match the exact color of the paver. Before you make your decision, we recommend verifying your selection at your local Artistic Paver retailer.
 (5) Colors on printed material or published on our website may vary from actual pavers. Before making a decision, we recommend verifying your selection at your local Artistic Paver retailer.
